

Sequencenator

SQ-1

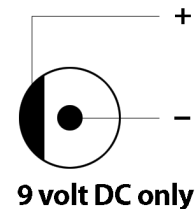

THE AUDIBLE DISEASE SEQUENCENATOR SQ-1 IS A FOUR STEP TONE SEQUENCER THAT SERVES UP AN AMAZING SOUND PALATE — EVERYTHING FROM REPETITIVE BEATS TO WHIRRING DRONES TO AN ALL-OUT CACOPHONOUS MESS.

EACH OF THE FOUR STEPS PRODUCES A NOTE IN TURN. YOU CAN ADJUST THE TIMBRE AND TYPE OF NOTE WITH EACH OF THE CHANNEL'S TONE KNOB. WHEN THE KNOB IS TURNED TO THE LEFT OF CENTER, THAT CHANNEL WILL PRODUCE TWEAKABLE WHITE NOISE — AND TUNABLE BLEEP TONES TO THE RIGHT OF CENTER.

OPERATES WITH A STANDARD 9-VOLT DC POWER SUPPLY WITH A BARREL TYPE NEGATIVE CENTER TIP. AUDIBLE DISEASE RECOMMENDS THE VISUAL SOUND 1 SPOT POWER ADAPTER.

CONTACT US AT [DISEASE@AUDIBLEDISEASE.COM](mailto:disease@audibledisease.com) IF YOU EVER HAVE PROBLEMS WITH YOUR SQ-1.
